

## XE-0001 Wiring Grommet

A small, yet essential component designed to provide a clean and secure pathway for wires and cables as they pass through holes in furniture, walls, or other surfaces. Made from durable materials, it not only protects cables from friction, wear, and damage but also enhances the overall aesthetic by concealing unsightly cords.

Whether used in desks, cabinets, or home entertainment setups, a wire grommet ensures that cables are neatly contained and safely routed, maintaining both functionality and a polished, clutter-free appearance in any environment.
